

# Certificate

Recharging your Qi device free of charge\*

The performance lifespan is approx. 5 years for the Qi-Mobile and Qi-Shield, and approx. 8 years for the Qi-Home Cell and Qi-Max. The longevity of the devices can be further reduced by strong exposure to electromagnetic fields. If your Qi device no longer performs optimally, don't hesitate to contact us. We will check its performance and, if necessary, regenerate it free of charge.

\* This offer is only valid for our current products Qi-Max, Qi-Home Cell, Qi-Shield and Qi-Me.
